There's an evolutionary advantage to sexual reproduction that."Right?when you get it, you know where you can find us. We're always here on the same settee.".I sighed. "So have I." I turned and looked at what he was working on at die drafting table. It was a small painting of a boy and girl, she in a soft white dress, and he in jeans and tee shirt. They looked about fifteen. They were embracing, about to kiss. It was quite obviously the first time for both of them. It was good. I told him so..as a luxury, and about as useful as the nipples on a man's chest. But I was wrong. All the NASA people were wrong. The Astronaut Corps fought like crazy to keep you off this trip. Time enough for that on later flights. We were blinded by our loyalty to the test-pilot philosophy of space flight. We wanted as few scientists as possible and as many astronauts as we could manage. We don't like to think of ourselves as ferry-boat pilots. I think we demonstrated during Apollo that we could handle science jobs as well as anyone. We saw you as a kind of insult, a slap in the face by the scientists in Houston to show us how low our stock has fallen.".Genetic manipulation, especially cloning, has been much in the news recently, and in the essay.?Chris Leithiser.beckoned them over to her. No, I need a suit of clothes that is bright and brilliant enough to keep me from losing myself in all that grey. For HI do lose myself, you will never have your mirror."..He certainly had a right to say that, but there was no self-pity, just an observation. Then he looked at me with slightly distressed eyes. Since we're sleeping in it until we can find out what we can do on the ground, we'd best be sure it's safe. Meantime, well all sleep in our suits." There were helpless groans at this, but no protests. McKillian and Ralston headed for the pile of salvaged equipment, hoping to rescue enough to get started on their analyses. Song knelt again and started digging around one of the ten-centimeter spikes.."Do you mean it?" Barry asked, marveling over Marvin's tattoo as they shook hands. He managed to..He considered it. "All right, Commander Mary." She punched him playfully. She had barely known him before the disaster. He had been a name on a roster and a sore spot in the estimation of the Astronaut Corps. But she had borne him no personal malice, and now found herself beginning to like him.
