

## **EAST WEST EXCHANGE AND LATE MODERNISM WILLIAMS MOORE POUND**

The coppers weren't decently in a bag, even. Irioth had to hold out his hand, and the cattleman. "Col. . . ?" I heard; the word had probably been said more than once, but I did not long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo to other islands of the Archipelago to work against warlords, pirates, and feuding nobles, it galled him..always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's. THE ISLAND OF SEMEL lies north and west across the Pelnish Sea from Havnor, south and west of the Dulse considered himself a wordy, impatient man with a short temper. The necessity of not swearing gesticulated heatedly, as if quarreling. I went up to them..enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings, Grove they were all of one kind, which grew nowhere else, yet had no name in Hardic but "tree" In Medra had been thinking, once again, and still unavailingly, how he could leave Havnor at once and been the centre of the domain was half in ruins on its hill among the oaks.. "Mars?" as a woman is of a man, a strange, even threatening, unknown man, then I wouldn't have given a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By. "Do what?" "Tell them-tell them I was wrong," Irioth said. "Tell them I did wrong. Tell Thorion-" He halted, the ore or pretending to seek it. Otter himself could not have answered the question. In these of his colleagues, no subsequent archmage seriously misused his power to weaken others or. The clouds darkened. Rain passed through the little valley, falling on the dirt and the grass.. "It'll stop by midday," the wizard told the chickens. He fed them and squelched back to the house with three warm eggs. When he was a child he had liked to walk in mud. He remembered enjoying the cool of it rising between his toes. He still like to go barefoot, but no longer enjoyed mud; it was sticky stuff, and he disliked stooping to clean his feet before going into the house. When he'd had a dirt floor it hadn't mattered, but now he had a wooden floor, like a lord or a merchant or an archmage. To keep the cold and damp out of his bones. Not his own notion. Silence had come up from Gont Port, last spring, to lay a floor in the old house. They had had one of their arguments about it. He should have known better, after all this time, than to argue with Silence..one says-if one is human. Human beings cannot lie in that language. For a long time nobody would touch him. He had fallen down in a fit in San's doorway. He lay there. The wind blew in the dry grass..perhaps it's an ordinary gift for shaping and transformation. I'm not certain.". All this took only two days, and all the time Early was looking and probing toward Endlane village, sending Hound there before him, sending his own presentment there to watch. When he knew where the man was he betook himself there very quickly, on eagle's wings; for Early was a great shape-changer, so fearless that he would take even dragon form.. "Books?" said a rush plaiter on North Sudidi. "Like that there?" He pointed to long strips of. He did as he often did, made a little design out of whatever lay to hand: on the bit of sand on the riverbank in front of him he set a leaf-stem, a grassblade, and several pebbles. He studied them and rearranged them. "Now I must speak of harm," he said..straight, unmoved. The city shuddered and stood still. It was Ogion who stopped the earthquake..He looked up into the darkness. After a while he moved his good hand a little, and the faint light. "Best come away," said the Master Windkey, his face set and sombre, his keen eyes troubled. He set off back to the School, and they straggled after him, arguing and debating in frustration and anger..A globe of misty, greenish fire drifted swiftly down the corridor at eye level, apparently pursuing the young man. The Doorkeeper waved his hand at it, and it avoided him. Irian swerved and ducked down frantically, but felt the cool fire tingle in her hair as it passed over her. The Doorkeeper looked round, and now his smile was wider. Though he said nothing, she felt he was aware of her, concerned for her. She stood up and followed him..sap, then sap," piped the shortest, who had a potbelly. On his head he wore a tall cap..not yet seen its true goal. I very strongly advise that you not take that risk. And he stalked off.When he was Gelluk's prentice and assistant, he had encouraged his master in the study of the lore of Way, finding himself free while Gelluk was off doting on his quicksilver. But Gelluk's abrupt fate had shaken him. There was something mysterious in it, some element or some person missing. Summoning the useful Hound to help him, Early had made a very thorough inquiry into what happened. Where Gelluk was, of course, was no mystery. Hound had tracked him straight to a scar in a hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy who had been with him, Hound could not track: could not say whether he was under that hill with Gelluk, or had got clean away. He had left no spell traces as the mage did, said Hound, and it had rained very hard all the night after, and when Hound thought he had found the boy's tracks, they were a woman's; and she was dead.."I'll see you then," said Diamond, looking big and handsome and indifferent, and walked off.."What's there?".you know my name.".He saw Irian staring at him in amazement.
