"They've got practically all their strength out on the flanks both ways along the gorge," Swley announced. "There are some units moving down the opposite slope, but they won't be in position for about another thirty minutes." The glow from the screen highlighted the mystified look that flashed across his face. He shrugged. "Right now they're wide open, right down below us.". Some inspiring achievements have helped offset the less encouraging news from other quarters: We have established

permanent bases on the Moon and Mars; colonies are being built in space; a manned mission has reached the moons of Jupiter; and robots are out exploring the farthest reaches of the Solar System and beyond. But" --he extended his arms in an animated sigh---"these operations have been national, not international.
