

MAYBERRY THE CATERPILLAR

"I think they fear them too," said Veil. Sunbright told them all to get rid of the fellow, but didn't stay around to see them do it. He went back down the south road as soon as he'd gulped a pint of beer at the tavern, telling them there was no room for two sorcerers in one village and he'd be back, maybe, when that man, or whatever he was, had gone. I believe this isn't very different from what historians of the so-called real world do..The faintest little sighing tremor ran over the slow, smooth swells..So little Diamond grew up in the finest house in Glade, a fat, bright-eyed baby, a ruddy, cheerful boy. He had a sweet singing voice, a true ear, and a love of music, so that his mother, Tuly, called him Songsparrow and Skylark, among other loving names, for she never really did like "Diamond." He trilled and caroled about the house; he knew any tune as soon as he heard it, and invented tunes when he heard none. His mother had the wisewoman Tangle teach him The Creation of Ea and The Deed of the Young King, and at Sunreturn when he was eleven years old he sang the Winter Carol for the Lord of the Western Land, who was visiting his domain in the hills above Glade. The Lord and his Lady praised the boy's singing and gave him a tiny gold box with a diamond set in the lid, which seemed a kind and pretty gift to Diamond and his mother. But Golden was a bit impatient with the singing and the trinkets. "There are more important things for you to do, son," he said. "And greater prizes to be earned." In her bed, in the dark, she lay and thought: He knew the wizard who named me. Or I said my name..against Kargish raids and forays..So it was. Finding was a base skill. Gelluk had never practiced it, but he could see that the young fellow had the gift. He would do well to learn the boy's true name so that he could be sure of controlling him. He sighed at the thought of the time he must waste teaching the boy what he was good for. While Erreth-Akbe was in Karego-At (which may have been a period of years), the depredations of the dragons increased. The Inward Isles were troubled by refugees fleeing the western lands and by interruptions to shipping and trade, since the dragons had taken to setting fire to boats that went west of Hosk, and harried ships even in the Inmost Sea. All the wizards and armed men Maharion could command went out to fight the dragons, and he went with them himself four times; but swords and arrows were little use against armored, fire-spouting, flying enemies. Paln was "a plain of charcoal," and villages and towns in the west of Havnor had been burnt to the ground. The king's wizards had spell-caught and killed several dragons over the Pelnish Sea, which probably increased the dragons' ire. Just as Erreth-Akbe returned, the Great Dragon Orm flew to the City of Havnor and threatened the towers of the king's palace with fire..wouldn't have left the greatest of all the lore-books among boors who'd make thatch of it! Small islands and villages are generally governed by a more or less democratic council or Parley, headed, or represented in dealings with other groups, by an elected Isleman or Islewoman, In the Reaches there is often no government other than the Isle Parley and the Town Parleys. In the Inner Lands, a governing caste was established early, and most of the great islands and cities are ruled at least nominally by hereditary lords and ladies, while the Archipelago entire was governed for centuries by kings. Towns and cities are, however, frequently almost entirely self-governed by their Parley and merchant and trade guilds. "Perhaps I am wrong," said Hemlock in his dry, flat voice. "To a man?" As she blew out the lamp and got into bed, the witch's daughter heard an owl calling, the little, liquid hu-hu-hu-hu that made people call them laughing owls. She heard it with a mournful heart. That had been their signal, summer nights, when they sneaked out to meet in the willow grove down on the banks of the Amia, when everybody else was sleeping. She would not think of him at night. Back in the winter she had sent to him night after night. She had learned her mother's spell of sending, and knew that it was a true spell. And to Otter he said, In the early darkness of a winter day, a traveler stood at the windswept crossing of two paths, neither very promising, mere cattle tracks among the reeds, and looked for some sign of the way he should take. Gelluk pressed close beside him, often taking his arm. "This way," he said several times. "Yes, yes! This is the way." Yet he was following Otter. The hierarchic and centralising tendency of this religion lent support at first to the ambition of the Kings of Hupun on Karego-At. By force of arms and diplomatic maneuvering, the House of Hupun within a century or so conquered or absorbed most of the other Kargad kingdoms, of which there had been more than two hundred.
