

## THE ART OF PREACHING

"So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep you safe. To keep you with the mule-breeders, and the nut-pickers, and these." She struck the ledger full of lists of names and figures, a flicking, dismissive tap. "A spell of silence," she said..sickly and monstrous children to the people of the isles-all these things were charged to the.Did he fear her, who had freed him?.shouted over the sound of a loudspeaker that repeated, "Meridional level, Meridional, change for.not a shred of power left in me to follow him with. He sensed great power in the young man, enough that he was.Medra had been thinking, once again, and still unavailingly, how he could leave Havnor at once and."Not till you'd come to Oraby, a ten-twelve miles on south." She considered only briefly. "If you."Are you there, my dear?" said the traveler. He spoke in the Old Speech, the Language of the Making. "Come along, then, Ulla," he said, and the heifer came a step or two towards him, towards her name, while he walked to meet her. He made out the big head more by touch than sight, stroking the silken dip between her eyes, scratching her forehead at the roots of the nubbin horns. "Beautiful, you are beautiful," he told her, breathing her grassy breath, leaning against her large warmth. "Will you lead me, dear Ulla? Will you lead me where I need to go?". "I'd always counted on your going into the family business," Golden said. His tone was neutral,.HOUND STAYED IN ENDLANE. He could make a living as a finder there, and he liked the tavern, and Otter's mother's hospitality..been enough of that kind of intimidation lately. But it went against his grain. He didn't like to."Oh, yes, like this," and sailed back down smooth as a cloud on the south wind..They brought him one boy. Dragonfly asked, fascinated, when she saw it, and when he answered with a laugh, "Rosemary," she laughed too..by mere luck I didn't go wrong. And by Anieb's gift of strength to me. She turned her long, creamy-white nose and beautiful eyes to look at her rider. He smiled. Gift had never seen him smile.. "That's something else."..was stiff, rejecting him. Then she turned and, fierce, hasty, awkward, seized him in her arms. It.The Creation of Ea contains no clear references to an original unity and eventual separation of dragons and humans, but this may be because the poem in its presumed original form, in the Language of the Making, dated back to a time before the separation. The best evidence in the poem for the common origin of dragons and humans is the archaic Hardic word in it that is commonly understood as "people" or "human beings," alath. This word is by etymology (from the True Runes Atl and Htha) "word-beings," "those who say words," and therefore could mean, or include, dragons. Sometimes the word used is alherath, "true-word-beings," "those who say true words," speakers of the True Speech. This could mean human wizards, or dragons, or both. In the arcane Lore of Paln, it is said, that word is used to mean both wizard and dragon..The Doorkeeper looked at her for what seemed a long time. Then it is your name," he said. "But maybe not all your name. I think you have another.". "Once I was on the high slopes," Mead said, "and a spring snowstorm came on me, and I lost my way. She came there. It was a sleepy southern island with a pretty old port town, Telio, built of rosy sandstone, and fields and orchards that should have been fertile. But the lords of Wathort had ruled it for a century, taxing and slave taking and wearing the land and people down. The sunny streets of Telio were sad and dirty. People lived in them as in the wilderness, in tents and lean-tos made of scraps, or shelterless. "Oh, this won't do," Crow said, disgusted, avoiding a pile of human excrement. "These creatures don't have books, Tern!".When she woke, the Master Patterner was sitting nearby, and a basket was on the grass between.aggrandize himself..He checked the henhouse, finding three eggs. She perched on a stool beside his at the high desk..It was Havnor, his land, where his people were, whether alive or dead he did not know; where Anieb lay in her grave, up there on the mountain. He had never been back, never come this close. It had been how long? Sixteen years, seventeen years. Nobody would know him, nobody would remember the boy Otter, except Otter's mother and father and sister, if they were still alive. And surely there were people of the Hand in the Great Port. Though he had not known of them as a boy, he should know them now..and dark eyes under dark brows, eyes that held his, held him, brought the truth out of his mouth.. He would not see it again unless he went through that narrow passage. Then he would see the mountain, all the sweep and cresting of it, over the calm waters where he used to try to raise up the magewind when he was twelve; and sailing on he would see the towers rise up from the water, dim at first, mere dots and lines, then lifting up their bright banners, the white city at the center of the world..Where he stood it was not wholly dark. Rivers and streams cut their way seaward through that high plain, winding and pooling, spreading and wandering, making a marsh of it, a big, desolate, waterland with a far horizon, few trees, not many people. The ashy soil grows a rich, bright grass, and the people there keep cattle, fattening beef for the populous southern coast, letting the animals stray for miles across the plain, the rivers serving as fences..and shepherds followed their flocks over the mountain to better pastures. The need to speak such a spell could not come often; the chance of his ever having to use it was very slight. He let the terrible spell sink down in his mind and be hidden and layered over with a thousand useful or beautiful or enlightening mageries and charms, all the lore and rules of Roke, all the wisdom of the books Ard had bequeathed him.
