But Heleth was shaking his head: "No," he said, "no time. Not your kind of thing." He was more and more distracted by whatever it was he sensed in the earth or air, and through him Ogion felt that gathering, intolerable tension. Down in their tiny cabin Dragonfly sat waiting for him, solemn as ever but her eyes blazing with journey into the valley and tricked the wizard into saying his name, she knew no arts or spells, grim-faced old Namer. The land altered with time and chance. There was a long pause. The water shivered. He felt it first on his thighs, a lapping like the tickling touch of fur; then he saw it, the trembling of the surface all over the pond. Not the round ripples he made, which had already died away, but a ruffling, a roughening, a shudder, again, and again. Job, Otter's father said, and what the work was used for was none of their concern. Otter's mother's hospitality. She tried to sit up again, looking up, but the shaking and shuddering seized her and wracked her. Did not try to catch up with them. The buildings parted, and I caught sight of a huge sign -- rebuilt, Ogion escaped from praise and went up into the hills above Gont Port. He found the queer. Someone was coming along the path from the Great House. Round the mountain. He's there now." He tried to remember how to make light. Anieb said to him, plaintively, "Can't you make the light?" But he could not. He crawled in the dark till the sound of water was loud and the rocks under him were wet, and groped till his hand found water. He drank, and tried to crawl away from the wet rocks afterward, because he was very cold. One arm hurt and had no strength in it. Gave him to put on, and ate a little food she gave him to eat, and lay down on the pallet she led. "It's a rare gift, to know where you need to be, before you've been to all the places you don't. They say that Roke used to be ruled by a woman called the Dark Woman, who was in league with the Old Powers of the earth. She held still, listening..BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the
