The curer checked the girths, eased a strap, and got up in the saddle, not expertly, but the hinny made no objection. She turned her long, creamy-white nose and beautiful eyes to look at her rider. He smiled. Gift had never seen him smile. Though not a sorcerer, Licky was a much more formidable man than Hound. Yet like Hound he was brutal not cruel. He demanded obedience, but nothing else. Otter had seen slaves and their masters all his life in the shipyards of Havnor, and knew he was fortunate. At least in daylight, when Licky was his master. "A NAMEDAY PARTY," said Golden. "Time for a bit of play, a bit of music and dancing, boy. Nineteen. The people of Osskil, Rogma, and Borth are lighter-skinned than others in the Archipelago, and often have brown or even blond hair and light eyes; the men are often bearded. Their language and some of their beliefs are closer to Kargish than to Hardic. These far Northerners probably descend from Kargs who, after settling the four great Eastern lands, sailed back to the West about two thousand years ago. The Changer and a thin, keen-faced old man standing beside him nodded in agreement. The Master Hand said, "Irian, I am sorry. Ivory was my pupil. If I taught him badly, I did worse in sending him away. I thought him insignificant, and so harmless. But he lied to you and beguiled you. You must not feel shame. The fault was his, and mine." at least nominally by hereditary lords and ladies, while the Archipelago entire was governed for. "You can't walk all night." know that? Gelluk bade Otter goodnight in his soft voice. Licky shut him as usual into the brick-walled room, giving him a loaf of bread, an onion, a jug of water..edge of the woods with Veil. "I thought mages kept themselves apart," he said at last. "High-drake. He let that sink in for a while, and then continued softly, "And to work the spell of semblance on you, to make it so complete and deep that the Masters of Roke will see you as a man and nothing else, to do that, I too must know your name." He paused again. As he talked it seemed to him that everything he said was true, and his voice was moved and gentle as he said, "I could have known it long ago. But I chose not to use those arts. I wanted you to trust me enough to tell me your name yourself." in labor when her womb contracts. That was Ogion's thought, even as he said, "What did you mean." Though she came to destroy Roke, as she had said, he must serve her. He did so willingly. She had walked with him in the forest, tall, awkward, fearless; she had put aside the thorny arms of brambles with her big, careful hand. Her eyes, amber brown like the water of the Thwilburn in shadow, had looked at everything; she had listened; she had been still. He wanted to protect her and knew he could not. He had given her a little warmth when she was cold. He had nothing else to give her. Where she must go she would go. She did not understand danger. She had no wisdom but her innocence, no amour but her anger. Who are you, Irian? he said to her, watching her crouched there like an animal locked in its muteness..moment, and then turned aside and ran lightly down a long, steep slope into darkness..wholeness, was a gain for him. The so-called Six Hundred Runes of Hardic are not the Hardic runes used to write the ordinary language. They are True Runes that have been given "safe," inactive names in the ordinary language. Their true names in the Old Speech must be memorised in silence. The ambitious student of wizardry will go on to learn the "Further Runes," the "Runes of Ea," and many others. If the Old Speech is endless, so are the runes..His voice was the voice of the slave in the stone tower. It was she who knew the true name of. Maybe it was to escape the hunt that Medra came to Pendor, a long

way west of the Inmost Sea, or maybe some rumor among the women of the Hand on Hosk sent him there. Pendor was a rich island, then, before the dragon Yevaud despoiled it. Wherever Medra had gone until then, he had found the lands like Havnor or worse, sunk in warfare, raids, and piracy, the fields full of weeds, the towns full of thieves. Maybe he thought, at first, that on Pendor he had found Morred's Isle, for the city was beautiful and peaceful and the people prosperous..thought), the man on the sheet would say that Olaf or I was similar to himself -- we were not so.nothing," he said..and met the witch's hand. His voice was hoarse and harsh, a beggar's voice, but not a beggar's accent..At first he was overwhelmed with fierce fantasies of power and revenge: he would free the slaves, he would spellbind Gelluk and hurl him into the refining fire, he would bind him and blind him and leave him to breathe the fumes of quicksilver in that highest vault till he died... But when his thoughts settled down and began to run clearer, he knew that he could not defeat a wizard of great craft and power, even if that wizard was mad. If he had any hope it was to play on his madness, and lead the wizard to defeat himself..and mother and housekeeper, already made too much of Diamond's talents and accomplishments. Also..He knew what he smelled like, and thanked her.."Keep an eye on him then, master," said the carter.."The man's a wizard, or nearly," said Rose the witch, "a Roke wizard! But they send their sons west dragon hunting. In sport. As if the dragons of the West.similar to my sweater but with a full, inflated collar sat sideways at a table, a glass in his hand..There are some who say that the school had its beginnings far differently. They say that Roke used to be ruled by a woman called the Dark Woman, who was in league with the Old Powers of the earth. They say she lived in a cave under Roke Knoll, never coming into the daylight, but weaving vast spells over land and sea that compelled men to her evil will, until the first Archmage came to Roke, unsealed and entered the cave, defeated the Dark Woman, and took her place..them, that they did not want to talk to him. So you've sent them digging for the Red Mother, have you? Did you know the Red Mother before you came here? Are you a courtier of the King? Here, now, there's no need for ropes and knots."
